Hazardous Decomposition Products: Upon decomposition, this product emits carbon oxides, silicon

oxides, and formaldehyde.

Special Protective Equipment and

Precautions for Firefighters: Exposure to combustion products may be a hazard to health.

Firefighters should wear full-face, self-contained breathing apparatus

and impervious protective clothing.

Specific extinguishing methods: Use extinguishing measures that are appropriate to local

circumstances and the surrounding environment.
Use water spray to cool unopened containers.

Environment Precautions: Avoid release to the environment. Prevent further leakage or

spillage if safe to do so. Retain and dispose of contaminate wash water. Local authorities should be advised if significant spillages

cannot be contained.

Methods and Materials for Containment

and Cleaning Up:

Absorb with inert absorbent material.

For large spills, provide diking or other appropriate containment to keep material from spreading. If diked material can be pumped, store recovered material in appropriate container. Clean up remaining materials from spill with suitable absorbent.

Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the

cleanup of releases.

## **Section 7: Handling and Storage**

#### **Precautions for Safe Handling**

Protective Measures: Handle in accordance with good industrial hygiene and safety practice.

Take care to prevent spills, waste and minimize release to the

environment.

Advice on General Occupational

Hygiene:

Do not eat, drink, or smoke when using this product.

Wash thoroughly after handling.

Wash contaminate clothing before reuse.

Conditions for Safe Storage, including

any Incompatibilities:

Store and handle in accordance with all current regulations and

standards. Keep in properly labeled containers. Keep separated from incompatible substances.

Incompatibilities: Strong oxidizing materials

### **Section 8: Exposure Controls/Personal Protection**

**Individual Protection Measures** 

Eye/Face Protection: Wear safety goggles. Provide an emergency eye wash fountain and

quick drench shower in the immediate work area.

Skin Protection: Skin should be washed after contact.

Hand Protection: Wash hands before breaks and at the end of workday.

Respiratory Protection: General and local exhaust ventilation is recommended to maintain

vapor exposures below recommended limits. Where concentrations are above recommended limits or are unknown, appropriate respiratory protection should be worn. Follow OSHA respirator regulations (29 CFR 1910.134) and use NIOSH/MSHA approved respirators. Protection provided by air purifying respirators against exposure to any hazardous chemical is limited. Use a positive pressure air supplied respirator if there is any potential for uncontrolled release, exposure levels are unknown, or any other circumstance where air
