Allegro® Ventilation Blowers

Engineered for higher output flow rates than other blowers of its size, up to 950 cfm! Blowers come with a quick-connect 25 ft. L-ducting canister and attaches without tools using cam-lock latches. For free air: 950, one 90° bend: 725, or two 90° bends: 525. They are great for working in crawl spaces.

SKU	DESCRIPTION
VB-250	Allegro® Ventilation Blower, 25 ft. Hose

8 in. x 25 ft. Hose for Ventilation Blowers

Lightweight and retractable, this 8 in. diameter non-collapsible hose is designed for maximum air handling capabilities and built for dual direction flow with minimum friction loss. Vinyl and polyester materials with PVC coating make this single-ply duct stand up to any rugged environment. Hose meets ASTM 227 specs.

SKU	DESCRIPTION
VB-825	Hose for Ventilation Blowers, 8 in. x 25 ft.

ADVANZ Goggles

ADVANZ goggles with 30 advances provide spray protection against spray and splash, and are perfect for spray painters. ADVANZ lens covers fit over all brands of full-face respirators and are used for spray painting or spray foam installation.

Dentec® Comfort-Air® Series 300 Half Mask Respirators

Dentec® Comfort-Air® Series 300 half mask respirators are molded from a custom-engineered thermoplastic blend that provides economy with function. They combine comfort and compatibility without compromise and have a low-profile design. Other features include multi-position cartridge placement, extra-large inhalation valves, a patented corrugated exhale valve, low "dead air" space and a unique low-fitting design. These respirators use the same replacement parts as the Comfort-Air® series 100 silicone facepiece and have swivel strap retainers.

Foam Knives

This spray foam removal tool is "The finest spray foam insulation removal knife in the industry". Our handles were designed to reduce the risk of hands accidentally sliding forward across the blade, in the event of a sudden stop while cutting. They have high impact-resistant handles and extremely sharp replaceable serrated edge blades. Our soft foam knives can be sharpened a number of times before needing to be replaced. "SHORTY", with it's 11 in. cutting edge, is perfect for all those hard to get to spaces in closets and corners. !!!WARNING!!! These knives are extremely sharp. You must use caution, and wear protective clothing and good quality heavy-duty gloves when handling this tool. Knives are sold individually.

SS-018

Super Shear

Your dream came true for trimming spray foam! This saw will cut open and closed-cell foam with great efficiency. The 1-⅛ in. stroke allows you to cut at a slower RPM, which reduces vibration while still getting excellent cutting speed.

SKU	DESCRIPTION
BLADES WILL ONLY WORK WITH SS-100	
SS-100	Super Shear V2, Foam Saw Only
SS-018	Super Shear, Closed-Cell, 30 in.
SS-027	Super Shear, Open-Cell, 27 in.

Curry Combs

Curry comb foam scrapers come as a 2-comb set (1−4 in. and 1−5 in.) with reversible heads. Reversible curry combs are assembled with non-rusting spacers and riveted together for an attractive, durable comb. A tension spring snugs the comb firmly on the bright metal shank pin to permanently attach the Grip-Fit® polypropylene handle to the comb. The shank pin allows the comb to reverse easily on the handle. The finished combs are lacquer dipped to give them a bright, durable finish. Curry combs are sold as a set only.

Gasket Gun Foam & Barrels

Great Stuff Pro™ Gasket is a one-component, water-based foam applied to the top plate, bottom plate and around the perimeter of all rough openings. It is specially designed to create a flexible, compressible, air seal that will stay in place when drywall is installed. Unlike traditional polyurethane-based foam sealants, this water-based solution and the specially designed gun can be easily cleaned with a garden hose and the included cleanout adapter.*

Tytan Gasket Foam creates a flexible and long lasting seal between lumber and drywall, increasing insulation parameters. It dries to a flexible and durable gasket foam which compresses to enable a flat, uniform drywall plane.

SKU	DESCRIPTION
FS-200	Dow Great Stuff Pro™ Drywall Gasket Gun Foam, 18 oz.
FS-201	Great Stuff Pro™ Drywall Gasket Foam Gun, 7-¾ in. Barrel
88077	TYTAN Gasket Foam, 14 oz.

Follow all directions for proper cleaning and disposal. Use only the special blue-handled gun Great Stuff Pro™ Gasket Dispensing Gun is to be used with Great Stuff Pro™ Gasket. Do not use other Great Stuff Pro™ products in this gun.

FS-195   *FS-33424*

01029	TYTAN Subfloor Pro Adhesive, 29 oz.

TYTAN Outdoor & Auto Black Foam

This one-component black polyurethane foam is specially formulated to fill, insulate and seal gaps, cracks and openings, blend in with automotive undercarriages and use in outdoor landscaping applications. It is environmentally friendly, contains no CFC's or HCFC's and it is UL listed.

SKU	DESCRIPTION
FS-197	TYTAN Outdoor & Auto Black Foam, 25 oz.

FS-196   *FS-335*

Foam Gun Cleaner

This cleaner is used to dissolve uncured foam, clean dispensing guns and as a general cleaning product. It comes packaged with 12 cans per case.

SKU	DESCRIPTION
FS-196	TYTAN Foam Cleaner, 12 oz.
FS-335	BOSS® 335 Gun Foam Cleaner

TYTAN Drywall Adhesive

Engineered to be used on vertical surfaces, this adhesive applies as a foam and stays as a foam while it cures and expands to fill the gap between the studs and drywall. Establishes a solid bond that prevents screw pops and eliminates customer callbacks, while also sealing air penetration points behind the wall.

SKU	DESCRIPTION
01031	TYTAN Fill All Gun Foam, 29 oz.

FS-193   *FS-812*

Fireblock Foam

These foams are designed to seal, fill, insulate and stop air infiltration as a fireblock. Fireblock is orange in color so it is easily recognizable for inspectors, and comes packaged with 12 cans per case.

SKU	DESCRIPTION
FS-193	TYTAN Fire Block Extreme PRO Gun Foam, Maximum Expansion, 24 oz.
FS-812	BOSS® 812 Fire Block Foam Gun Grade, Minimum Expansion

FS-184   *FS-336*   *88050*

Extreme Climate Foam

Polyurethane Gun Foam Sealant is a multipurpose UL classified one-component polyurethane foam for filling and sealing around gaps, cracks, pipes, penetrations, etc. It comes packaged with 12 cans per case.

SKU	DESCRIPTION
FS-184	Soudafoam All Season Gun Foam, 24 oz.
FS-336	BOSS® 336 Extreme Weather Foam Gun Grade, 24 oz.
88050	TYTAN Extreme Temp Insulating Foam Sealant, 24 oz.

60 Second Foam Adhesive

General purpose, fast-tack 60 second foam adhesive. Provides excellent bond strength when using a variety of construction materials, including wood, metal, foam and concrete, without degrading or deforming XPS and EPS polystyrene foams.

SKU	DESCRIPTION
88057	TYTAN Foam Bond 60, 24 oz.

Automatic Door Sweeps

This residential spring-loaded aluminum door sweep is non-adjustable and non-handed.

SKU	MFG. SKU	SIZE	QUANTITY
481497	DB019AV36	36 in. Long	6/Case
Triple Flange Weatherstrips

These aluminum and vinyl door bottom sweeps include three gray vinyl flanges for maximum draft control. Each sweep is 1-¾ in. high and 36 in. long.

SKU	MFG. SKU	SIZE	QUANTITY
AS-361	DB041AV36	1-¾ in. x 36 in.	50/Case
Single Sweep Weatherstrips

These aluminum and vinyl door bottom weatherstrips are 2-¼ in. high and 36 in. long. They are packaged with 6 per case.

SKU	MFG. SKU	SIZE	QUANTITY
481503	DB038AV36	2-¼ in. x 36 in.	6/Case

KC500 Wedge Gray Triangular Gasket & Aluminum Screw-On Door Weatherstrip Sets

This heavy-duty aluminum wedge weatherstrip includes a thermal rubber flap. Slotted application holes make installation easy. The KC500 is fire labeled and UL classified. Wedge weatherstrips are 1-¼ in. wide and each set includes two 84 in. sides and one 36 in. top. They are packaged with 12 per case.

SKU	MFG. SKU	SIZE	QUANTITY
481361	WS268AV196	1-¼ in. x (2) 84 in. x 36 in.	12/Case

Bumper Thresholds

This heavy-duty vinyl bumper threshold is packaged with screws and measures 1-¼ in. wide by 36 in. long. They are packaged with 24 per case.

SKU	MFG. SKU	DESCRIPTION	SIZE	QUANTITY
481496	BI-0190N	Aluminum	1-¼ in. x 36 in.	6/Case

Vinyl Hose

This flexible white vinyl hose is appropriate for most venting uses. It attaches easily to dryer vents or bath fans and is made to be used in temperature ranges from 0°–160°F. Clamps are not included.

SKU	MFG. SKU	SIZE
481481	215	3 in. x 50 ft.
481482	219	4 in. x 50 ft.

Flexible Aluminum Ducts

These 4 in. flexible aluminum ducts are 8 ft. long and for use in areas where heat is evident. They are great for range hoods, bath vents or laundry, and are intended for temperatures from 100°–400°F. Hoses are shipped compressed and are packaged with 9 per carton. Clamps are not included.

SKU	MFG. SKU	QUANTITY
481485	302	9/Carton

Innovent™ Attic Baffles

In order to achieve maximum efficiency with roof vents, it is necessary that ample intake ventilation be provided. This can be easily accomplished by the installation of these surface-mount undereave vents. Innovent™ baffles have no off-gassing and are completely cured. They also feature a slight center perforation for an easy split to use for 16 in. on center. They are packaged 100 per bundle with 1,600 per pallet.

SKU	SIZE	QUANTITY
VP-240	22 in. x 48 in.	100/Bundle; 1,600/Pallet

Cardboard Baffles

These baffles are lightweight, easy to install and provide excellent air flow. The side folds on the CB-160, CB-240 and CB-243 are 1-¾ in. and their tails can be either 3 in. or 6 in. The CB-243 side folds are 2 in. and its tail can be 4-½ in., 6-½ in. or 9 in. DB-244 does not have tabs.

Insulation Anchors & Accessories

Anchors are glued in place and used to support rigid board and batt type insulation for wall, ceiling and roof applications. They are copper coated 12 gauge steel spindles on a 2 in. x 2 in. galvanized steel plate. Anchors are generally installed one day and insulation the next. Both the anchors and glue need to be at room temperature when installed. Space anchors 12 in.−16 in. apart for ceilings and walls. For every 500−1000 pins, 1 gal. of adhesive is used. Other sizes are available upon request.

Reflective Insulation

Reflective insulation consists of two layers of aluminum foil laminated to two layers of polyethylene air bubble cushioning. The air bubbles form trapped air spaces to provide excellent R-values. The solid film and foil surfaces stop convection heat loss and infiltration while the aluminum surfaces stop radiant heat by reflecting it. Reflective insulation will require LTL freight delivery.

SKU	DESCRIPTION
DBF-2125	Double Bubble Foil, 2 ft. x 125 ft.
DBF-4125	Double Bubble Foil, 4 ft. x 125 ft.

VP-010   *VP-100*

Viper® CS Polyethylene Crawl Space Vapor Barriers

Viper® CS vapor barriers are designed specifically for controlling moisture migration in crawl space applications. They are manufactured with a bright white color to give any crawl space a fresh, clean look. Viper® CS vapor barriers feature a low perm rating and are engineered with exceptional puncture resistance, tear resistance and tensile strength, providing a long-term solution for controlling crawl space moisture.

SKU	DESCRIPTION
VP-065	Viper® CS, 6.5 mil, 12 ft. x 100 ft.
VP-010	Viper® CS, 10 mil, 12 ft. x 100 ft.
VP-016	Viper® CS ,16 mil, 12 ft. x 100 ft.

SKU	DESCRIPTION
800010	Santa Fe Oasis105 Dehumidifier

SKU	DESCRIPTION
800004	Santa Fe Compact70 Dehumidifier

Santa Fe's most versatile and energy-efficient dehumidifier, the Oasis105, is perfect for a wide range of applications, including whole-home, basements, attics, and crawl spaces. It features onboard digital controls, variable speed fan, dew point cut out, and a low maintenance positive pressure condensate drain.

With a horizontal configuration and a flow-through design, this system removes excess moisture from low-clearance crawl spaces and tight basement areas to a small home theater.

Insulation Netting

Netting offers several advantages over insulation supports and does not rust or retain moisture. Once installed, it provides easy access to a structure for expansion or repair. ⅛ in. and ³⁄₁₆ in. netting both work well for walls. Netting can also be used as a backing to hold wet spray, for spraying fiberglass insulation or as temporary face before installing drywall. Use ¼ in. netting where greater strength is required and for fireproofing spray applications. The 1 in. x 2 in. and the ¾ in. sizes are great replacements for wire batt hangers.

Redwood

Rough Sawn Cedar

Pine

Regular Plastic Plugs

Regular Plastic Plugs

Wood Plugs

Unlike other plugs that are completely tapered, our plug is tapered 5°. Cut from western white pine, our ¾ in. thick plugs have slightly oversized tops, making for a tight fit. All wood plugs are made from kiln dried lumber and are produced on specially designed equipment, resulting in quality, uniformly-sized plugs. Our plugs feature a unique advantage; they are manufactured by cutting from both sides at once, thus eliminating all splintered face edges that require time-consuming patching methods. These plugs are counted prior to being packaged into net bags, eliminating extra handling in further distribution and inventory control. They are also available in redwood and rough sawn cedar.

Our plugs are cut to fit with the bits/hole saws that J&R carries.

Long Nose Plastic Plugs

The Long Nose, with its exceptional design, is our best plastic plug. Made of high-impact polystyrene with a 5/8 in. shank and heavy gripping teeth, this plug will hold in both single and multiple layers of siding. Extra wide cap has a tapered edge for obscured vision on siding and a textured top for easy painting.

LXC-125   *LXA-110*

LENOX® Carbide-Tipped Hole Saws

These carbide-tipped hole saws have greater wear-resistance and higher heat-resistance than bi-metal hole saws. The carbide-tipped tooth design features triple-chip grind for smoother, concentric cuts. These saws have up to 10 times longer life on abrasive material than standard bi-metal hole saws. They have a cutting depth of 1-½ in. (38mm). The use of a carbide-tipped pilot is recommended.

Flexaust® Mark II Hose

Mark II hose features an especially abrasion-resistant crown and translucent ribbed walls for easy monitoring of cellulose/material flow. Lightweight polyethylene hose offers superior flexibility with the added feature of having interior walls designed to achieve the greatest amount of fluffing possible to the material being blown through it. This hose is both durable and economical for rugged, all purpose performance.

Powdered Graphite

Graphite powder reduces static electricity and friction. One or two cans should occasionally be blended with cellulose and run through the blower and hose. Doing this provides lubrication that increases efficiency and flow.

SKU	DESCRIPTION	QUANTITY
PG-430	1 lb.	12 Cans/Case

Flexaust® Flex-Plus Hose

This hose has a smooth bore interior which allows more fiberglass insulation to be blown through it. It is formulated with premium grade copolymer and is crush-proof and abrasion-resistant. Flex-Plus hose is strong and flexible and can withstand the heaviest insulation blowing schedule because cap and channel are spirally wound together. It is also lightweight and transparent for easy monitoring of material flow.

SKU	INSIDE DIAMETER SIZE	COLOR
FC-3550	3-½ in. x 50 ft.	Clear

Krendl 309 Blowers

Known for durability and high production, Krendl 309 blowers are designed with steel fans and fan chambers, are powered by Dumore motors and have 120V/60 Hz, 20 amp plugs. They are designed with a 2 in. or 2-½ in. outlet and do not need a blower hose adapter. Their blower intake is 2-⅜ in.

SKU	DESCRIPTION
SC-350	2-½ in. Outlet
SC-351	2 in. Outlet
SC-039	Motor Only, 120V

Krendl KD1 Dense Pack Sidewall Nozzles

The Krendl KD1 is used for dense packing walls. The nozzle inserts into the wall and excess air escapes through it as material is being blown into the walls. This allows the wall to be filled faster compared to other methods used to dense pack walls. The nozzle comes with a filter bag that reduces the dust that escapes with the excess air. The KD1 nozzle also allows the installer to drill one hole into the wall instead of two; the nozzle swivels so the material flow can be redirected to the upper portion of the cavity as the wall cavity fills up.

Cool Machines CM-700 Machines

The CM-700 is a portable all-fiber machine for dense pack (retrofit) sidewall, wall spray or attic blow applications. It is designed for high portability and low power requirements. With its compact size and easy hopper removal, handling and transport are simple in any vehicle. This machine is readily supplied from any standard home outlet due to its low power requirements (15 amp single input). The CM-700 produces 950 lbs./hr. of cellulose or 400 lbs./hr. of fiberglass. It is 22 in. wide x 28 in. long x 58 in. high and weighs 180 lbs. A 4,000W generator or larger is required. Wheels are not included.

SKU	DESCRIPTION

482792	Adapter for Krendl Machines

Cool Machines CM-1500 Machines

These all-fiber blowing machines handle cellulose, fiberglass and mineral wool as well as damp recycle fiber for wall spray. Their high-pressure (4.5 psi) blower/airlock assembly far exceeds the requirements needed for retrofitting and dense packing sidewalls. CM-1500 standard machines produce 2,200 lbs./hr. of cellulose or 900 lbs./hr. of fiberglass; they are also 24 in. wide x 38 in. long x 57 in. high and weigh 350 lbs. with a double blower model and 330 lbs. with a single blower model. A 7,500W generator or larger is required. Wheels are not included.

Cool Machines Pressure Gauges

SKU	DESCRIPTION
CM-001	Pressure Gauge

Cool Machines CM-2400 Machines

The CM-2400 series is a low maintenance, economical and high production machine with a simple design. Its minimal amount of moving parts makes repairs easy. It produces 3,000 lbs./hr. of cellulose or 1,000 lbs./hr. of fiberglass. The CM-2400 is 23 in. wide x 62 in. long x 48 in. high. It weighs 720 lbs. with a double blower model, 750 lbs. with a four blower model, and 780 lbs. with a P.D. blower model. An 8,000W generator or larger is required.

SKU	DESCRIPTION
CM-2400DI	Cool Machines CM-2400 Machine, Double 13 amp Blowers & Double Input
CM-2400SI	Cool Machines CM-2400 Machine, Double 13 amp Blowers & Single Input

Cool Machines CM3000XL Machine Systems

Dual "scalping" augers enhance feeding and eliminate bridging in the hopper. A high-speed stainless turbo-shredder maximizes fiber conditioning and production. LED-lighted plugs and receptacles allow for quick electrical diagnostics. This machine also features two air lock options, a reversible hopper and a 4 in. Output. Ask about custom setup options to match your project needs.

SKU	DESCRIPTION
482731	Cool Machines CM3000XL Machine System

Cool Machines CM-3500XL Machine Systems

Made for high production and versatility, the CM-3500XL with optional 5 HP positive displacement (P.D.) blower is an all-fiber machine that features an oversized 12 in. diameter by 24 in. long airlock. It produces 5,400 lbs./hr. of cellulose or 2,400 lbs./hr. of fiberglass with the optional 5 HP P.D. blower. The CM-3500 XL can be transported in a truck or trailer to the job-site, and set up to spray or blow in minutes with its ingenious dual slide gate feed control. Generator costs can be reduced with the lower power requirements of this blower (240V 30 amp).

CM-3500S	Airlock Seals

Krendl 475 Electric Machines

This low-maintenance, economical machine is designed for high production. It will run on normal household power and requires two 120V 15 amp circuits. The Krendl 475 provides a large, easy-loading hopper and produces 2,100 lbs./hr. of cellulose or 700 lbs./hr. of fiberglass. It is 37 in. wide x 31-½ in. deep x 63 in. high and weighs 360 lbs. The 475 comes with wheels, a 150 ft. remote control and has a 3 in. hose outlet. An 8,000W surge/startup generator is required.

Krendl 575 Electric Machines*

The Krendl all-fiber 575 electric machine is a great mid-sized machine. It has a 3 in. hose outlet, dual agitators and a dual blower system. The Krendl 575 produces 2,600–2,800 lbs./hr. of cellulose or 800–1,000 lbs./hr. of fiberglass. It is 38 in. wide x 28 in. deep x 63 in. high and weighs 382 lbs. This machine can be wired for two 120V circuits or one 30 amp 240V circuit. It includes a 150 ft. remote control. A 12,000W surge/startup generator is required.

SKU	DESCRIPTION
482915	Krendl 575 Electric Machine, Triple Input 120V (Requires three 15 amp 120V Circuits)
AF-575D	Krendl 575 Electric Machine, Double Input 120V (Requires a 20 amp 120V Circuit & a 30 amp 120V Circuit)
AF-575S	Krendl 575 Electric Machine, Single Input 240V (Requires a 30 amp 240V Circuit)

Krendl 2300 Electric Machines*

The Krendl 2300 has a 3 in. hose outlet, dual agitators, a 2 HP direct drive motor, a shredder assembly and a dual blower system. It will produce 3,000 lbs./hr. of cellulose or 1,000 lbs./hr. of fiberglass. The airlock system slides out to reduce maintenance downtime. The 2300 has a large 40 cu. ft. hopper capacity with a loading tray. It is 32-½ in. wide x 68 in. deep x 71 in. high and weighs 850 lbs. This machine comes with a 150 ft. remote control. A 17,500W surge/startup generator is required.

SKU	DESCRIPTION
AF-2300D	Krendl 2300 Electric Machine, Double Input 120V (Requires one 20 amp 120V Circuit & one 30 amp 120V Circuit)
AF-2300S	Krendl 2300 Electric Machine, Single Input 240V (Requires one 30 amp 240V Circuit)

Krendl Pressure Gauges

SKU	DESCRIPTION
AF-250	Krendl Pressure Gauge

Krendl 2800-G Gas Machines

This machine is specifically designed for contractors; it is capable of blowing all major brands of cellulose and fiberglass according to manufacturer specifications. The 2800-G will produce 3,600 lbs./hr. of cellulose or 2,100 lbs./hr. of fiberglass. It weighs 1,195 lbs., is 41 in. wide x 65 in. deep x 73 in. high and has a 40 cu. ft. hopper capacity. This machine comes with a user-friendly 12V DC electric dashboard, an 18 HP Briggs & Stratton® V-twin gas engine, a clear acrylic safety guard that allows for inspection and a durable powder coat finish. Its control panel has engine controls, a pressure gauge and air bleed off.

SKU	DESCRIPTION

Intec FORCE/3 HP Machines

With cellulose production rates up to 2,220 lbs./hr. and fiberglass production rates up to 900 lbs./hr., this unit is used by contractors performing retrofit or new construction installs. Many profit generating opportunities are available as applications include attic installs, dense pack, spray-in and spray-on.

- Hopper capacity: 11.5 cu. ft.
- Hose size: 3 in.
- Blower(s): 1 high-performance 120V 15 amp
- Agitator motor: 120V 15 amp
- Transmission: worm gear/direct drive
- Electric:120V standard; 240V options available (two 120V 15 amp circuits required)
- Agitator: 5-blade vertical
- Warranty: 1-year limited; 90-day electric, airlock system, and blower*

Production:
- Cellulose: 28—37 lbs./min.
- Fiberglass: 11—15 lbs./min.
- Weight: 335 lbs.
- Dimensions: 29 in. wide x 30 in. long x 51 in. high

SKU	DESCRIPTION
IF-301	FORCE/3 HP Machine
IF-302	Airlock Seals, Set of 6

See manufacturer warranty for complete information.

Intec FORCE/2 HP Machines

This high-pressure machine allows fast and efficient dense packing. It is a powerful two-stage blower with a one-way valve and many features including high volume, high pressure and long life. The FORCE/2 HP has twist-lock electrical receptacles and polyethylene construction that makes this machine rust-free, lightweight and extremely durable. Its urethane seals provide higher pressures, increased production rates and less maintenance. This machine comes with stainless steel airlock plates.

- Transmission: durable direct drive with no chains
- Hose outlet: 3 in. (7.6 cm)
- Electrical: 115 VAC (two 15 amp circuits required)
- Blower: two-stage 115 VAC with 15 amp input and a one-way valve
- Agitator motor: 1-½ HP 115 VAC with a 15 amp input
- Hopper: 9 cu. ft. (13 with hopper extension)
- Warranty: 1-year limited*

High-production (testing per ASTM C519 standards):
- Cellulose: 30—40 lbs./min.
- Fiberglass: 9—11 lbs./min.
- Weight: 260 lbs.
- Dimensions: 30-¼ in. x 44-¾ in.

Intec TURBO™ FORCE Machines

These portable machines put you in the lead with labor savings. They have the fastest-in-class install speeds for dense pack, blow behind netting and attic applications while meeting manufacturer coverage charts. Their 15 cu. ft. hoppers hold 2+ bags of cellulose or 1 bag of fiberglass; this allows for enhanced crew sequencing. In addition to application versatility and ease of use, TURBO™ FORCE machines also have quick, easy access for making machine adjustments with their tilt-back design. The TURBO™ FORCE HP2 weighs 478 lbs. and the TURBO™ FORCE HP MAX weighs 488 lbs. Both models are 29-½ in. wide x 36-⅛ in. long x 63-½ in. high. All TURBO™ FORCE machines come with a variable-speed blower pressure control. The TURBO™ FORCE HP2 and TURBO™ FORCE HP MAX are available with GoWireless industrial wireless remotes. Both models come with a 1-year limited warranty on their transmissions and drive motors and a 90-day warranty on their electrical systems, airlock systems and blower motors.* A 10,000W generator with three 110V outlets is recommended.

Production Rates:
TF-002: cellulose up to 2,460 lbs./hr. and fiberglass up to 900 lbs./hr.
TF-003: cellulose up to 3,300 lbs./hr. and fiberglass up to 1,200 lbs./hr.

Cool Machines CoolVac-16

The Cool Machines CoolVac-16 is a heavy-duty vacuum with a newly designed blade that creates fan tip turbulence to eliminate any wet fiber accumulation or buildup on the fan blade and chamber area. It weighs 250 lbs. and has an electric start 16 HP Briggs & Stratton® Vanguard® V-twin engine with a 6 in. inlet and a 6 in. outlet and Run-Flat Wheels. The CoolVac-16's dimensions are 36 in. long x 30 in. wide x 48 in. high.

SKU	DESCRIPTION
CV-016	Cool Machines CoolVac-16
CV-018	18 in. Replacement Impeller

Cool Machines CoolVac-23

This 23 HP vacuum is a rugged economy valued vacuum with a 6 in. inlet and a 6 in. outlet. It weighs 350 lbs. and has an electric start 23 HP Briggs & Stratton® Vanguard® V-twin engine, Run-Flat Wheels and a large 8 gal. fuel take.

SKU	DESCRIPTION
CV-230	Cool Machines CoolVac-23
CV-231	20 in. Replacement Impeller

Cool Machines CoolVac 37

BIGGER, BADDER BLADE + MORE HORSEPOWER = SPEED! Get out of the attic quicker with the increased performance of this new high-powered vacuum. Its powerful suction could potentially double your current production. Performance data is available at jrproductsinc.com.

SKU	DESCRIPTION
CV-037	Cool Machines CoolVac 37

CoolVac 22

This vacuum features a 22 HP Honda GX690 engine, an 8 gal. fuel tank, positive pressure lubrication, low level oil shutdown, oil pressure shutdown switch, 6 in. inlet and exhaust and 10 in. run-flat wheels. It also has an electric start with a 12V battery included and a 3-year warranty*.

SKU	DESCRIPTION
482725	Cool Machines CoolVac 22

See manufacturer warranty for complete information.

Cool Machines CoolVac 27

The Cool Machines CoolVac 27 is the most powerful "direct drive" portable vacuum we offer. It has no belts, pulleys or bearings to service. It weighs 365 lbs. and is 45 in. long x 33 in. wide x 45 in. high. The CoolVac 27 has a Briggs & Stratton® Vanguard® 27 HP V-twin, electric start engine with an 8 gal. fuel tank. Its rugged ½ in. thick AR-400 wear-resistant steel chamber has a 4 in. x 22 in. diameter ¼ in. AR-500 gusset reinforced fan blade. With an 8 in. intake and exhaust, the CoolVac 27 can easily process full length fiberglass batts.

WS-200	Krendl Glue/Water Barrel with Lid

Wet Spray Glue

This adhesive is designed for the spray application of cellulose, mineral wool and fiberglass to a variety of surfaces. It dries into a tough, flexible, water-resistant film, creating a highly bonded finish to many substances.

SKU	DESCRIPTION
GL-550	55 gal. Drum
GL-551	5 gal. Bucket

Depth Gauges

These are ideal for measuring the thickness of sprayed insulation.

SKU	DESCRIPTION
DG-100	Depth Gauge
